Through the Principal,

Dear Parents /Guardians,

P4 Science Learning Journey to the Singapore Science Centre (SCC)

The school is organising an enrichment Science lesson for all Primary 4 students in the Singapore Science Centre. This learning journey is **compulsory** as it is paid for by the school to provide every child the opportunity to experience this meaningful learning journey.

In this enrichment lesson, students will carry out a series of hands-on activities to enhance their learning on heat gain or loss by an object. By applying the concepts on heat energy and temperature changes, students will work in groups to tackle the design challenge using different materials and ways to reduce heat gain.
